In French II, we will learn more about grammar and the different tenses used for daily conversation. We will also work on a few situations from daily life that students might have to deal with when traveling to France or when dealing with a French native speaker.

【学習目標】

The course will aim at teaching the students the basic skills that are necessary to handle some simple every day situation and more particularly introducing and talking about yourself. Students will also be able to ask questions about others and inquire about the world around them. Throughout the course, students will develop the skills and confidence to communicate with others in French by practicing what will be learned in class and through listening and speaking activities.
