

Public Health in a Nuclear Disaster

– Message from Fukushima –

March 11th...Memories along the path from the first 1000 days.
Dispatch from Fukushima!

Edited by **Seiji YASUMURA**

Professor, Department of Public Health, Fukushima Medical University School of Medicine,
Executive Assistant, Radiation Medical Science Center for the Fukushima Health Management Survey, Fukushima Medical University

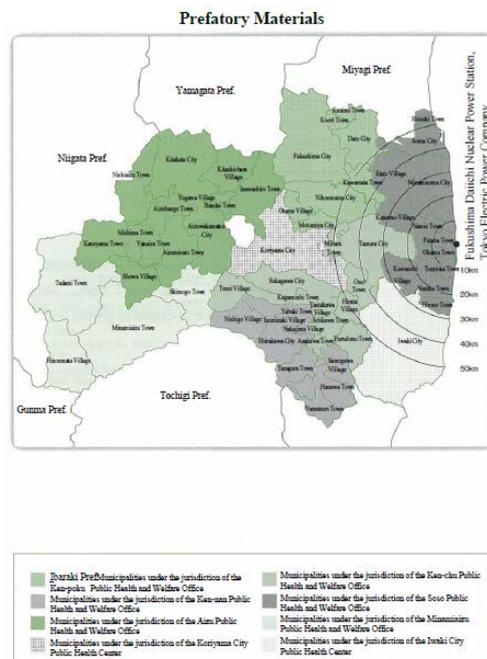

and **Kenji KAMIYA**

Professor, Research Institute for Radiation Biology and Medicine, Hiroshima University
Program Director, Phoenix Leader Education Program (Hiroshima Initiative) for Renaissance from Radiation Disaster, Hiroshima University

This book has been published in Japanese in January 2014 From Nanzan-do and in English from Hiroshima University Press in August 2016 adding a chapter to report post-disaster support of HU.

Six years have passed since the accident of Fukushima Daiichi Nuclear Power Plant took place after the Great East Japan Earthquake. The situation after the accident is improving little by little but I dare to say that we are still affected by the disaster. I wish this book transmits the information on the nuclear disaster, the post-accident circumstances in Fukushima and various intervention of public health for the people affected by the disaster and helps to expand correct understanding of it..
